### Notes
1. Specifications presented are from manufacturer and owner information.
2. Guns with ★ symbol have been accurately measured and weighed with the lightest standard issue empty magazine, and the smallest NIB (New In Box) configuration, using the measuring devices shown on page 3. Barrel Length is measured from breach face to end of barrel.
3. Full Loaded Weights are based on the average weight of a round of that caliber, includes a round in the chamber, a fully loaded standard magazine, and are rounded to the nearest full ounce for ease of comparison.
4. All pistols are stainless steel except;
   - Kel-Tec - carbon steel
   - Kimber - Matte and Blued slides are carbon steel, Inox slide is stainless steel
   - Taurus - stainless steel
5. Many pistols may have other options and accessories available. See manufacturer's web sites for the latest information.
6. Some pistols have specific ammunition restrictions and/or limitations. See manufacturer's web site for more information.
7. The "ghost hand" shown is a man's glove size large with the first finger segment of the index finger on the trigger.
8. (???) means unknown, (?) means unconfirmed.
Digital “box” used to measure Overall Length, Height, and Width of guns shown with star symbol.

Digital scale used to Weigh guns with star symbol.

Tape measure used to measure Barrel Length of guns with star symbol.
